

### Virus, Spyware and Malware Removal

If you have a virus, spyware, worm or other malware, R&A Technologies can help! We also offer antivirus software installation (either a free version or an antivirus software program you have purchased).

### PC and Printer Cleaning

R&A Technologies offers onsite computer and printer cleaning services for your home or business. We will thoroughly clean inside your pc or printer inside and then we'll clean all external surfaces with a disinfectant solution, including your keyboard, mouse and display. When we're finished, we will re-connect everything and verify (if possible) that your computer and accessories are working properly.

### Preventive Maintenance for Business's

#### Increase ROI of your Equipment

For Businesses, preventative maintenance is a necessity for PC's, Printers and P.O.S.'s (Point Of Sale systems).

Our focus is to address five main areas of concern for your business.

- Enhance the professional image you've worked so hard for.
- Reduce sick time taken by your staff.
- Increase employee productivity.
- Increase longevity of your equipment (ROI).
- Environmental Concerns.

*"Helping you to get back to  
business and your life"©*

# 847-951-7379

*Technology connects the world!*

**Let's face it**, in today's world we all depend on technology in many forms. When a device you depend on starts acting up, fails or dies, it impacts your way of life and sometimes others. Well, we feel your pain.

R&A Technologies takes pride in providing fast, courteous and quality service by a highly skilled and qualified technician. Affordable onsite service to your home or business, for those times when you just can't do without a working computer. In most circumstances, repairs can be completed within an hour or less. One hour labor minimum charge\*. Response times vary with parts availability (next day in most cases).

We offer a wide variety of business and residential support services and solutions. Not sure what to buy? Free, unbiased consultation services available by phone.

\*trip charge may apply

**Whether you live, work or own a business and you need service, R&A Technologies is here to help!**

#### **PC Repair Desktops, Laptops and All-in-Ones**

In most circumstances, the repair can be completed within an hour or less. One hour labor minimum charge\*. (Response times vary by part(s) availability)

#### **Installation Services**

Do you need help to setup and properly configure a new PC and/or printer? Leave it up to R&A. and relax. We'll verify functionality and even give you a short tutorial on your new system.

#### **PC Tune-up**

A "tune-up" refers to optimizing your computer, running a registry and Windows cleaner and disabling unnecessary start-up programs so that your computer runs efficiently and fast.

#### **Data Transfer or Retrieval**

Data retrieval from old hard drives or after system crashes. Note: The ability to retrieve data from your hard drive will depend on its operational condition.

#### **Operating System Reinstallation**

If you're at the point you want to throw your PC out the window, don't fret. Maybe a fresh clean reinstallation of your operating system is all you need. (Requires legal copy of operating system).

#### **Backup Solutions**

Your data is the most important thing on your computer, be it family photos, important tax documents or important papers. Unfortunately, computers eventually fail. Having a backup plan is the most important tasks you will undertake as a responsible computer user. We'll help you in determining which program is best for you depending on your situation.

#### **Wireless**

We will install your wireless router and make sure it is secured. We'll also test the network so it connects to your PC, phone or Smart TV. We can also install your wired or wireless printer.

#### **Remote support**

If you have access to the internet, we can connect to your PC remotely and resolve many issues. Please call to schedule.
